DOWSING FOR TRANSFORMATION

Dowsing is a process which serves as a theoretical wormhole into fields which connect us to the higher consciousness field of the Divine realm, the undifferentiated essence of existence.

Dowsing is a shortcut to psychic power: the bridge to the information field of the mystery schools which contains everything required to become a highly connected and intuitive being.

Dowsing empowers us to upgrade our operating system, beyond the limitations of the world.

Dowsing is a way of awakening and tuning in to information not available to our 5 senses, coming from the non-local higher consciousness or universal mind.

In the double-slit experiment's phenomena of "observers creating reality" nothing can exist in this world unless it is brought on by human consciousness.

The universe is one large consciousness, and everything is part of that consciousness.

The common denominator that bridges the two fields is our human consciousness. It is the link between the tangible local realm and the intangible non-local realm.

It is when we are in an altered state that we encounter the psychic realm.

When dowsers dowse, their minds are in an altered state.

HOW DOWSING WORKS

Everything has a unique frequency.

A dowser can ask to be shown that frequency and then can detect it.

The ideomotor effect is the micro-movements within the body which react and make a movement appear visible at the expression of the pendulum or rods.

In asking a question you are dialoguing with the eternal information matrix which knows everything.

Quantum entanglement:

All subatomic particles which make up everything in the universe are somehow connected and that any part of us will remain forever connected to will all other parts.

This is the basis for radionics:

A method for sending precisely defined healing to people, animals or plants, no matter where they are in the world.

THE HUMAN BRAIN WAVE STATES

The part of our brain that interact with the cosmic world is the intuitive right brain.

The part of our brain which connects with the local physical world is the left one.

Specific experiments using EEG machines to study the brain states of dowsers have shown that during dowsing the left and right sides of the brains unify to work together in harmony. This is the holy grail for meditators, where beta alpha theta and delta brainwaves synchronise, and a portal opens to the non-local field.

There are 4 brain wave states a human being can function in.

Beta

Alpha

Delta

Theta

Alpha is the state we want to fall into we want to when we do dowsing.

Theta and delta are ideal but alpha is good enough.

BETA

The beta brain wave state is the one we function at most of the time in our day to day activities

ALPHA

The alpha brain state is the one we reach when we are in deep thought or in light meditation

DELTA

The delta brain wave state is the one reached when we are in deep sleep

THETA

The theta brain wave state is the one we reach when we are in deep meditation

GETTING STARTED WITH DOWSING

Start by connecting with the pendulum or rods

- Check yeses and nos with basic questions
- Establish your yes, no and maybe
- Establish when you are ready to ask questions
- If these answers don't come naturally, begin the process of programming the answers.

Hydrate well, drink lots of water before beginning the session

- Be present – meditate to bring yourself into presence before starting
- Come from a place of wholeness Is your dowsing based on need or greed?
- Write your questions down on a pad
- Be specific with questions.
- Ask permission
- Focus intently on your tool
- Detach yourself from the answer
- Practice more

- Double check your answers with an expert
- Eventually... be ready to lose your tools and use your organism as a tool instead.
